

# PARKING ADDENDUM

All cars must have a parking permit in their cars at all times.

A maximum of two parking permits are allowed per apartment with manager approval.

If you buy a new car DO NOT park in the lot until you have a permit in your car.

Visitors must park in the designated spaces. If there is no visitor parking then they must park on the street. It is your responsibility to inform your guest.

Failure to comply with these rules will result in your car being towed at vehicle owners expense.

If your car is in the shop and you have a temporary car then you need to notify the office immediately to put your temporary car on the "no tow" list.
